Biblical Time Day*Definition:*

The term "day" generally refers to the time it takes for the alternating periods of light and darkness in the sky to complete one cycle (that is, 24 hours). However, in the Bible the same term is often used to refer to a shorter period of time (such as the time between sunrise and sunset) or a longer period of time that is often not specified.

- "Day" is sometimes used in contrast to "night." In these cases, the term refers to the period of time when the sky is light.
- The term may also refer to a specific point in time, such as "today."

Biblical Time Month*Definition:*

The term "month" refers to a period of time lasting about four weeks. The number of days in each month varies depending on whether a lunar or solar calendar is used.

- In the lunar calendar, the length of each month is based on the amount of time it takes for the moon to go around the earth, about twenty-nine days. In this system there are twelve or thirteen months in a year. Despite the year being twelve or thirteen months, the first month is always called the same name even though it may be a different season.
- The “new moon,” or beginning phase of the moon with its sliver of light, marks the beginning of each month in the lunar calendar.
- All the names of months referred to in the Bible are those of the lunar calendar since this was the system used by the Israelites. Modern Jews still use this calendar for religious purposes.
- The modern-day solar calendar is based on how long it takes the earth to go around the sun (about 365 days). In this system, the year is always divided up into twelve months, with the length of each month ranging from twenty-eight to thirty-one days.

Definition:

- In both calendar systems a year has twelve months. But an extra thirteenth month is sometimes added to the year in the lunar calendar to make up for the fact that a lunar year is eleven days less than a solar year. This helps keep the two calendars more in line with each other.
- In the Bible, the term “year” is also used in a figurative sense to refer to a general time when a special event takes place. Examples of this include, “the year of Yahweh” or “in the year of drought” or “the favorable year of the Lord.” In these contexts, “year” could be translated as “time” or “season” or “time period.”
